Salvation

What if an immaculate conception happened in modern times? It's Brooklyn, 1960, a nice Jewish girl... 33min & NFB's SALVATION - A documentary about the frontline street workers who serve the needy under the umbrella of the Salvation Army. Shot on the streets of Toronto at Christmastime, it chronicles the small hopes and tiny victories of life lived in the shadows of destitution. 50 min Pg Special guest Captain Steven Cameron

Shackleton' Legendary Antarctic Journey - a retelling of Sir Ernest Shackleton's ill-fated expedition to Antarctica in 1914-1916, featuring new footage of the actual locations and interviews with surviving relatives of key expedition members, plus archived audio interviews with expedition members, and a generous helping of the footage and still photos shot on the expedition. The double length version of the brilliant IMAX film, narrated by Liam Neeson G

A reprise of my best movie-going experience of 2003. "An extraordinary family drama of three sisters trying to deal with their dying mother [who drinks a bit] and the shared secrets of their past. A sharp, funny screenplay, and strong performances. The sweeping Nova Scotia landscape echoes the arc of emotions of this troubled family dredged once more to the surface. A stand out film." I agree! R & THE WORM HOLE An amazingly condensed and powerful short film about a young family's reaction to a child's sudden disappearance. Pg13

Protection

6:30 Monday Jan 12

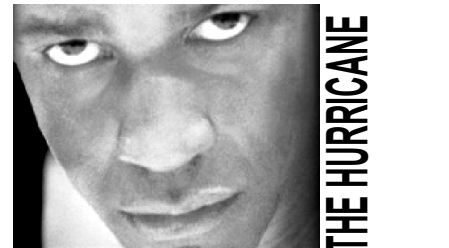

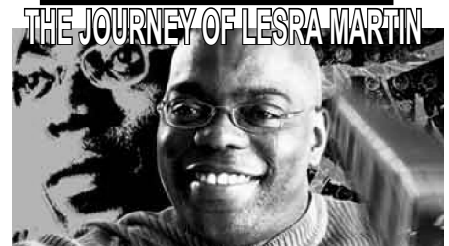

A child protection worker is confronted with the extremely difficult decision of whether or not to break up a family. The mom is heroin addicted and her boyfriend might be abusing the children. In this line of work, decisions are never black and white, but they can mean the difference between life and death. Gritty and uncomfortably real. R *** Filmmaker and past child protection worker*** Bruce Spangler will be with us for a Q&A

Shooting Indians

This documentary has a provocative title but refers to the controversial subject of historical photography as practiced by the legendary Edward Curtis and a modern native photographer. There's lots of grist for a discussion, the first of a number of films I have coming about the role and ethical considerations of the art. It has a great BC hook with a visit to Barb Cranmer in Alert Bay and as well as to the elderly lady who played the princess in Curtis' film Land of the War Canoes (or Headhunters), the film we see a segment of looping in the Royal BC Museum. Patricia Vickers will join us for discussion Pg

THE JOURNEY OF LESRA MARTIN An excellent, inspiring 45min documentary about a black kid from the ghetto who freed 'the Hurricane' and who went on to be a lawyer and inspirational speaker, now living in Kamloops. & THE HURRICANE - the movie based on that true story of Hurricane Carter, (Denzel Washington earned an Oscar, with music by Dylan). Rated R for language and some violence. 2 1/2 hr
