Crop circles are explored by someone who believes. I'm a sceptic, in case you're wondering, but find this a fun film and it'll drive some of our fans wild. Beautiful images of exquisite patterns created by aliens - or clever engineering students. We'll have the director, Robert Nicol, call in for a Q&A. He has a long list of films to his credit, many for NFB. Star Dreams is a pilot for a series OUR HOME IN THE STARS - a 6 part documentary series on E.T. contact. 77min PG see [www.stardreams-cropcircles.com](http://www.stardreams-cropcircles.com)

## People Say I'm Crazy

The real-life story of an artist's struggle with schizophrenia

"a mind is a terrible thing to lose  
- this is the story of how I got mine back"

A film made by a young man, an artist, documenting his 10 year struggle with schizophrenia. This film shows a different side of schizophrenia from Hollywood's presentation. Here a typical young man, seriously ill, tackles the long haul, the set backs, the small triumphs with an amazingly supportive family and therapist. An honest and moving film. That family includes a sister who is a documentary filmmaker who encouraged him to keep a video diary of his journey. see [www.peoplesayimcrazy.org](http://www.peoplesayimcrazy.org) We'll present a Q&A update with John and Katie Cadigan video'd this May at the Frames of Mind Festival in Vancouver. 84min PG13

## Triplets of Belleville

Fabulous, quirky, animated film. When her grandson is kidnapped during the Tour de France, Madame Souza and her beloved pooch Bruno team up with the Belleville Sisters - an aged song-and-dance team from the days of Fred Astaire - to rescue him. An exciting new vision, this co-production between France, Belgium, Canada & UK, was brought to life over 5 years by Quebec resident, animator Sylvain Chomet. From the DVD we'll see how. PG

## Drummer Boy

A feature film by Dr David Dawson (who was with us at MM last August with his film MY NAME IS WALTER JAMES CROSS) about a young man experiencing the onset of schizophrenia. An amazing performance is turned by 22 year old Dominic Zamprogna best known for his lead in CBC tv series "Edgemont". Dr Dawson will present the film in person.
