C'EST PAS MOI, JE LE JURE!
(It's Not Me I Swear)

Leon is ten years old and has an overly fertile imagination that allows him refuge from his parents' constant fighting. In the summer of '68 Leon finds he will do anything to kill the boredom and pain. In his world there is Léa, an equally odd girl his age, and the irritating neighbour who is always right. When his mother quits the family to start a new life in Greece, Léon will try everything to escape his pain: steal, lie... and fall in love with Léa.

"Frost/Nixon not only re-creates the on-air interviews, but the weeks of around-the-world, behind-the-scenes maneuvering between the two men and their camps as negotiations were struck, deals were made and secrets revealed...all leading to the moment when they would sit facing one another in the court of public opinion."

Brilliant cinema! Frank Langella (as Nixon) and Michael Sheen (as Frost) recreating their celebrated stage roles. We'll add some of the original footage for comparison. 122min Pg

DRAWING FROM LIFE

How do people learn to live rather than to die? NFB's *Drawing from Life* follows a group therapy workshop for people who have attempted suicide more than once. A hybrid of vérité documentary and animation, this unusual film's visual metaphors illuminate the thoughts and feelings of its participants. This candid portrayal of twelve people who together, for 20 weeks, take on their fears, their behaviors and their ghosts to move towards life and away from suicide. It's a surprisingly uplifting and universal story about what it means to be alive. 30min feature with 36min extras 2009 Pg

No Bikini

AN EVENING WITH IVAN COYOTE
"NO BIKINI" - 9min BC 2007 A seven year old girl has a glorious summer in swim class, passing as a boy. It's a wonderful short film based on an Ivan Coyote short story - that, in turn, inspired this evening's visit by the author to MM. Ivan will read some of her stories including the one that No Bikini was based on, engage with the audience, and sign some books. Ottawa X Press said "*Coyote is to CanLit what k.d. lang is to country music: a beautifully odd fixture.*"
