CLOUDY WITH A CHANCE OF MEATBALLS

Here's an incredibly creative, vibrant animated film. What if a young inventor on a tiny island out in the Atlantic invented a food machine that rains food from the sky? A cub reporter/weather girl and a not so enthusiastic, old school dad, and every food joke imaginable is exploited, "Cloudy With a Chance of Meatballs" is a feast for the eyes and a treat the entire family can savor. 90min 2009 Pg www.cloudywithachanceofmeatballs.com/

Saturday Live!

Like Victoria Maxwell's previous solo shows (Crazy for Life, Funny...You Don't Look Crazy and Head Over Heels), That's Just Crazy Talk looks at both the light and dark side of living with bipolar disorder, anxiety and psychosis. It describes one woman's journey of coming to terms with mental illness within herself and in her family. An intimate, yet universal story exploring the judgment we face not only from others, but from ourselves and the mysteries of family secrets. This funny and achingly truthful play both entertains and educates, exploding stigmas and portraying the love and resilience it takes to stay together as a family in the midst of illness and the beauty that can result when we face our demons.

Grief, Loss and Dementia

Caregivers share their journeys

This new educational film is an honest, poignant conversation with the spouses and children of people with dementia. Their emotional journey is full of bumps and unpredictable turns, as well as surprising beauty, even humour. Their insights are an education for anyone who is involved with someone with dementia, whether as a family member or a health care professional. Post-screening Q & A includes guests from the Alzheimer Society of BC, and researchers (UVic & VIHA) whose work is leading to more effective support for family caregivers.

Copies of this 40 min DVD and supporting grief workbooks available for sale.

WIN / WIN

This stylish drama follows the fortunes of a shy investment-bank underling (the delightfully clown-haired Oscar Van Rompay) whose anonymous post-it notes containing invariably accurate market predictions eventually lead to a high roller position, penthouse apartment and self-doubt... The lightning fast make-and-break world of day trading stock markets is a challenging place. 90min 2010 PG13 Dutch & English w subtitles

"Allen brings his fantasy to life with such affection and joy that he transports us into his dream come true as a shared fantasy. We, too, are embraced in the bosom of this society, welcomed into the company of F. Scott and Zelda Fitzgerald, Ernest Hemingway, Gertrude Stein,

Pablo Picasso, Salvador Dali, Luis Bunuel, et al. as an equal. All we have to bring is a little wit, and the amiable Wilson does just that." This, his most popular film so far, is "Woody Allen's valentine to the City of Light". 94min 2010 Pg13
