### Music Movie Wednesday!

Dreams of having a job and a family seem so average yet for some, so far away.... "Inclusion" is a documentary about the members of ZUIHOU TAIKO, a professional taiko (Japanese drumming) group in Nagasaki prefecture made up musicians with developmental disabilities. The film follows one family living, loving, and raising their child independently - and making powerful music. Although ZUIHOU's members started drumming as rehabilitation, they became a professional group through dedication, constant practice and love of the art. They lead us to a world of inclusion, because "the world is more beautiful when everyone is in harmony." Canadian Premiere! 106min Pg 2011  
**The evening kicks off with a live performance by Victoria's Uminari Taiko**

No arrangement is more beautiful...or more complicated.  
**A Late Quartet**  
When the beloved cellist of a world-renowned string quartet receives a life changing diagnosis, the group's future suddenly hangs in the balance: suppressed emotions, competing egos, and uncontrollable passions threaten to derail years of friendship and collaboration. As they are about to play their 25th anniversary concert, quite possibly their last, only their intimate bond and the power of music can preserve their legacy. Terrific cast: Christopher Walken, Philip Seymour Hoffman, Mark Ivanir, Catherine Keener, Imogen Poots. 105min 2012 R

Genius Within: The Inner Life of Glenn Gould weaves together an unprecedented array of never before seen footage of Gould, photographs and excerpts from his private home recordings and diaries plus personal interviews with Gould's most intimate friends and lovers, some who have never spoken about him publicly before, to reconstruct his thoughts on music, art, society, love, and life. The film reveals a tortured, yet often humorous man, with an insightful world view. Another great doc from White Pine Pictures (who brought you the Emily Carr and Tom Thomson). 106min 2009 Pg13

## CUBERS

CUBERS delves into the minds of an elite group of brainiacs obsessed with the Rubik's Cube. We follow them as they compete for the title of the fastest Cuber on the planet. The result is a spell-binding documentary about passion, compulsion, and the need to belong. CUBERS tells a universal story of the drive of the human spirit to overcome great obstacles while achieving the nearly impossible. 70min 2008 G <http://www.cubers.com/>  
Here's a example of Cube enthusiasm: a Syrian student attending Pearson College who made a portrait of Lester B Pearson using 1200 Rubic's Cubes. **And, of course, there will be cake!**
